Insights so far

- There is no magic bullet
 - epistemic complexity
 - distribution of responsibility
 - technical progress
- What is required is an intelligent mix of options
- The metaphor of an ecosystem is appropriate.

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement no. 786641

Towards an Ecosystem of Artificial Intelligence for Human Flourishing

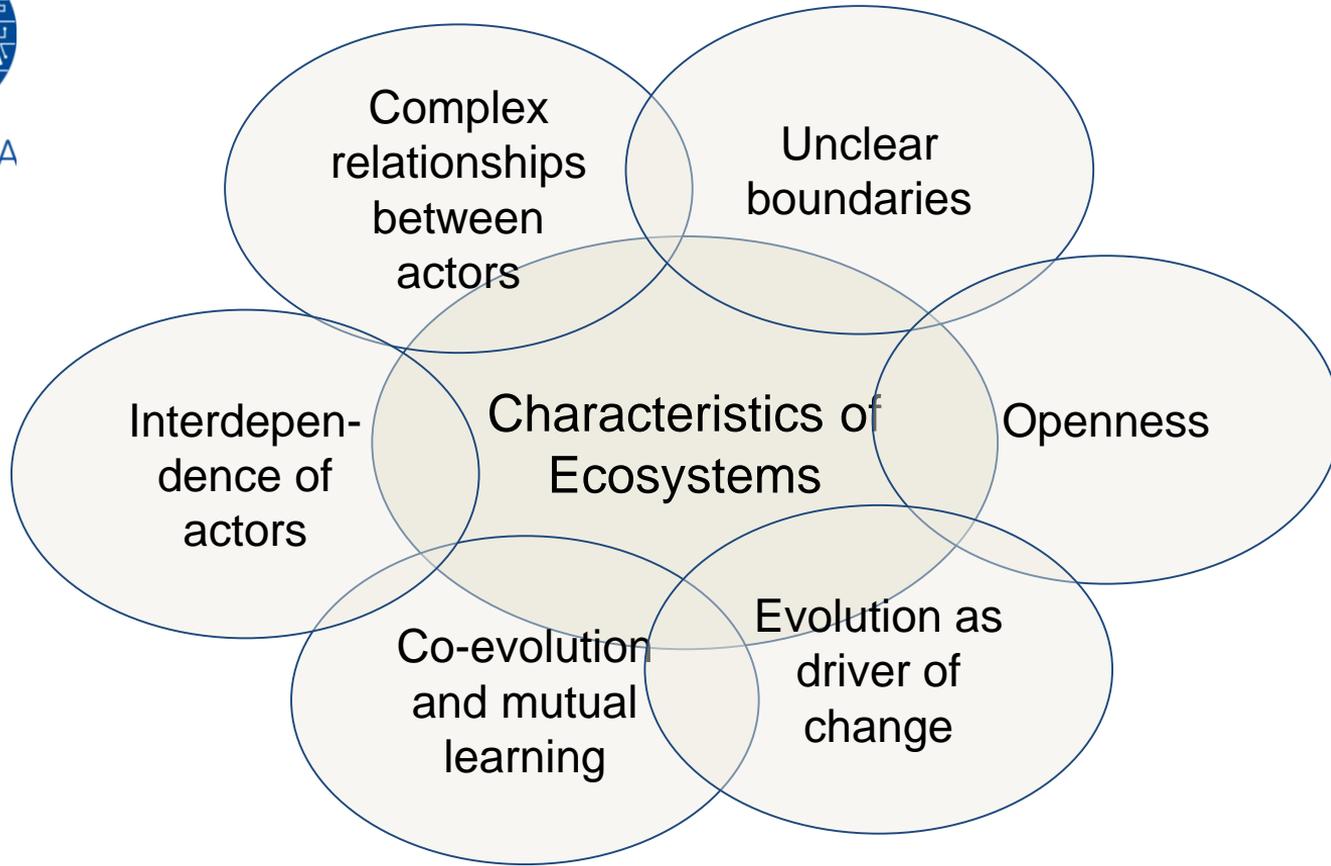

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement no. 786641

The SHERPA Vision

Ethics as integral to excellence in AI

A world where excellent AI and smart information systems support human flourishing by

- integrating ethical concerns by design and
- safeguarding human rights

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement no. 786641
